- 5.2.8.4 Attendance Records.** Aspen is the system of record for all attendance data. Schools must correct a student’s records in Aspen to affect his eligibility. Except as specified elsewhere in this handbook, no other method will be used to determine a student’s compliance with the attendance rules.
- 5.2.9 Age.** A student who reaches nineteen (19) years old on or before August 1st of the school year in which

he/she wishes to compete in grades nine (9) through twelve (12) is not eligible to participate (5-A DCMR § 2704.4 (a)).

5.2.10 Transfer Students. A student must have been continuously enrolled at their school for one calendar year and must maintain continuous enrollment throughout the season.

5.2.10.1 Definition. A student transfers when they move from a school where they had established residency and enroll in a public school in the District of Columbia. For the purposes of this Handbook, “public school” applies solely to DCPS.

5.2.10.2 Transfer Rule. A student who transfers enrollment from any school, including a member school, to any member school in grades nine (9), ten (10), eleven (11), or twelve (12) is ineligible to participate in interscholastic athletics for one(1) calendar year, unless he or she meets one (1) of the following exceptions:

5.2.10.3 Exception – 9th Grade. A student in grade nine (9) may transfer one (1) time during that school year without loss of eligibility. However, a student shall not participate in a contest at the varsity level for two different schools in the same sport during the same school year. A student is considered a ninth (9th) grader until the first day of school of their tenth (10th) grade year.

5.2.10.4 Valid Change of Residence. The transfer is due to a change in permanent address, as evidenced by any of the documents specified in D.C. Official Code § 38-309.

5.2.10.5 Court Order. The transfer is caused by court action. Court action is defined as an order from a court of law affecting legally committed students. In the case of a transfer of guardianship or custody, the transfer shall be the result of a court order signed by a judge, commissioner, or master of a court of competent jurisdiction. A petition for the transfer of guardianship or custody, an affidavit, or a notarized statement signed by the affected parties shall not be sufficient to render the student eligible to participate in interscholastic athletics. For purposes of eligibility, a child placed within CFSA custody is eligible to participate in interscholastic athletics immediately at the school they attend.

5.2.10.6 Seat Opening at School Where Student Had Previously Applied. If the student is in their second, third, or fourth year of eligibility and the transfer is a result of a seat opening in the receiving school if the student had previously applied to the school and had been rejected due to a lack of capacity or a result of admission via the DC school-based lottery. For this exception to apply, the receiving school shall have appropriate documentation including a dated and school stamped student application from a previous school year; a letter in response to the application notifying the student that they were not accepted; and a letter dated after the start of the school year offering the student a seat in the receiving school or a notification of admission from the lottery school.

5.2.10.7 Terminal Point in Educational Program. Transfer because of promotion or administrative assignment to the ninth (9th) grade from a school whose terminal point is the eighth (8th) grade, or to the tenth (10th) grade from a junior high school whose terminal point is the ninth (9th) grade, shall not constitute a transfer. Students so promoted or administratively assigned shall be eligible.

5.2.10.9 School Closure. The sending school is closing and ceasing academic operations.

- 5.2.10.13 Student Transfers Due to Homelessness.** A transfer is the result of the student's being homeless as defined by OSSE, except if the student's homeless status is shown to have been created by the student or his/her family for the primary reason of eligibility in interscholastic athletics.
- 5.2.10.14 Student Transfers Because He or She Has Been the Victim of a Violent Crime or Persistently Dangerous School.** The transfer is a result of a student exercising transfer options (i.e., persistently dangerous schools 5-E DCMR § 3805 or victim of a violent crime, bullying, sexual harassment 5-E DCMR § 3809) mandated by DC law.
- 5.2.10.15 Foreign Exchange Student.** The student is a qualified foreign exchange student or an international student residing in the District with his or her parent(s) (5-A DCMR § 2707.1(m)).  - Is attending school under a foreign exchange program on the current Advisory List of International Educational Travel and Exchange Programs published by the Council on Standards for International Education Travel and such program assigns students to schools by a method which ensures that no student, school, or another interested party may influence the assignment.
- 5.2.10.16 Student Did Not Previously Participate in a Sport.** A student who has not previously participated in the sport for which they are interested in competing; who is released by a proper school authority from a sending school; and has completed the registration process at the receiving school shall be eligible 45 days after the date on the signed enrollment forms, provided they meet all other DCSAA eligibility requirements. The receiving school shall submit, to DCSAA, an electronic or signed statement from the athletic director of the sending school that states the student did not participate in the specific sport the preceding year in which they wish to participate.
- 5.2.10.17 Ordered to Transfer for Non-Athletic Purposes.** The student-athlete may submit a Student-Athlete Transfer release form which shall be signed by the parent, the athletic director, and principal of the sending school and the athletic director and principal of the receiving school stating that the transfer is for non-athletic purposes in support of their transfer request.

5.2.10.21 A student who participates in interscholastic athletics and is found ineligible to participate is prohibited for one (1) calendar year from the date of the finding of ineligibility. Additionally, in order to be considered for eligibility when the calendar year has passed, the student shall show that all of the eligibility requirements are satisfied.

5.2.10.22 The period of ineligibility for students that transfer absent an exception shall be one (1) calendar year commencing with the first (1st) day of official attendance in the receiving school.

5.2.10.23 A student who is ineligible to participate in interscholastic athletics at the time of transfer from one (1) school to another, for any reason other than failing to meet the requirements of this chapter, shall not be considered for eligibility at the receiving school until one (1) full calendar year has passed from the date it was determined that the student was ineligible.

5.2.11.3 Penalty for Recruiting. Any student who participates or attempts to participate on a school’s athletic team after having been recruited to that school for purposes of participating in athletics shall be considered ineligible. Upon reason to believe the rule prohibiting recruiting has been violated, appropriate DCPS personnel will conduct a thorough investigation. Appropriate disciplinary action will be taken based upon the results of the investigation in accordance with Article 11 of this handbook, which addresses possible penalties to schools, school employees, and individual ineligible students.

8.11.3 Heat Policy. The DCPS/DCIAA Sports Medicine Team utilizes the Kestrel Heat Stress Meter with wet bulb globe thermometer (WBGT) to determine exposure to dangerous heat stress conditions. The Heat Index Reference Guide that is followed is:

WBGT	ACTIVITY GUIDELINES & REST BREAK GUIDELINES

The athletic department shall be contacted once all individuals are safely sheltered.

9.1.1 Certified Athletic Trainer. All Athletic Trainers shall be certified through the Board of Certification and meet the requirements outlined by the job requirements of DCPS.

9.1.2 Certified Athletic Trainer Responsibilities. The Athletic Trainer is responsible for coordinating and administering a comprehensive sports medicine program for all student-athletes in their school. The Athletic Trainer is also responsible for establishing injury prevention practices and the immediate care of injured athletes. The Athletic Trainer implements injury rehabilitation under the direction of medical personnel. The duties of the position include but are not limited to the following:

- a. Serves as the allied health care professional who is a member of the athletic program.
- b. Develops an injury prevention program, immediate treatment procedure, and rehabilitation procedure.
- c. Recognizes the severity of injuries, administers appropriate first aid and refers injured student-athletes to appropriate medical professionals.

- g. Assists coaches in the planning of off-season and in-season conditioning and strength training programs.
- h. Provides first aid care/medical assistance for visiting athletic teams and/or their Athletic Trainers.
- i. Renders an immediate decision, in the absence of a physician, regarding the playing status of a student-athlete.
- j. Reviews and maintains copies of all AT-forms that comprise the participation packet of all student-athletes from their respective high school(s).
- k. Coordinates and distributes sports medicine information to coaches and athletic administration within the DCPS.

9.2 PAPERWORK REVIEW PROCEDURE

9.2.1 Paperwork Review Timeline and Requirements. Participation forms that are submitted will be reviewed within three (3) school days from the date of submission. Only completed participation packets will be accepted for review.

9.3 INJURY/ILLNESS NOTIFICATION PROCEDURE

9.3.1 Reporting Injuries/Illness When Athletic Trainer is Not Present. In the absence of an Athletic Trainer, if an injury or illness occurs and it is considered to be life/limb threatening or it requires that the student-athlete be transported to a hospital by ambulance the coach should:

- a. Call 911 immediately.
- b. Provide EMS with an exact location
- c. Provide appropriate emergency care

- f. Have a member of your coaching staff (21 years or older) designated to accompany the student-athlete to the hospital prior to ambulance's arrival
- g. Give EMS a copy of the student-athletes Emergency Treatment Form (AT-14)

9.3.2 Post Injury/Illness Return to Participation Protocol. Once a student-athlete has been seen by a physician for an injury or an illness, he or she must obtain and submit written clearance from the treating physician or his/her primary care physician. The written clearance must state that the student-athlete is "cleared to return to competitive sport" and be submitted to the assigned Athletic Trainer prior to being allowed to return to participation. The athlete may be removed from participation if he/she is not functioning at a satisfactory competitive level.

9.4 CONCUSSION/HEAD INJURY POLICY

9.4.1 Management of Concussions. The athletic rule as it pertains to concussions is supported by two governing bodies, the National Athletic Trainers Association (NATA) and the National Federation of High School Sports' Sports Medicine Advisory Committee. This policy is also in compliance with the District of Columbia's Athletic Concussion Protection Act of 2011.

9.4.2 Concussion Protocol. Proper management of a concussion is the best way to minimize further complications and promote safe recovery. It is most important to prevent Second Impact Syndrome – a catastrophic increase in intracranial pressure which can result in massive brain swelling, herniation, and/or death. This syndrome occurs in athletes up to 14 days post-concussion and when an athlete returns to competition prior to the complete resolution of initial symptoms. Therefore, the following concussion protocol is utilized by DCPS DCIAA Sports Medicine:

- a. Any athlete diagnosed with any symptom of a concussion is removed from participation immediately and disqualified from activity for that day.
- b. Following the injury, all concussions are evaluated by the Athletic Trainer and referred for further medical evaluation by a physician as warranted. Once seen by a physician, a written clearance to return to participation must be submitted to the Athletic Trainer prior to starting the mandatory return to participation protocol. The protocol will be supervised by Athletic Trainer and/or a designee.

9.4.2.1 Athlete with History of Two Concussions. An athlete with two (2) concussions in a season will be removed from athletics for the remainder of that season. Return to play will require neurocognitive testing and written approval by the treating/primary care physician.

9.4.2.2 Athlete with History of Three Concussions. An athlete with a lifetime history of three (3) or more concussions is highly recommended to avoid athletics. Participation will require neurocognitive testing and be at the discretion of a physician and written approval by a neurologist/primary care physician will be required.

9.5 ASTHMA AND ALLERGIES

9.5.1 Asthma. The DCIAA requires all students with asthma indicated on any medical eligibility documentation to have emergency rescue medication readily available at all team-related activities. The rescue medication inhaler must not be expired and must have remaining doses.

9.5.1.1 Failure to Produce an Inhaler. Failure for a student-athlete identified with asthma to have his/her emergency asthma medication at an athletic event will render that student-athlete ineligible until his/her emergency asthma medication is made available. The requirement for emergency medication cannot be waived by a parent.

9.5.2 Anaphylaxis. Any athlete with allergies, i.e. bee stings, peanuts, etc., and who are prescribed emergency medication (Epi-Pen) must have his/her medication readily available at all team-related activities.

9.5.2.1 Failure to Produce EpiPen. Failure for a student-athlete to have their EpiPen readily available

at all team-related activities will render him/her ineligible for participation. The requirement for emergency medication cannot be waived by a parent.

9.6 AED POLICY

9.6.1 Proper Care and Use. The Automated External Defibrillator (AED) is the property of the District of Columbia Interscholastic Athletic Association (DCIAA) and is being assigned to the schools for use in emergency situations. The AED's care and security is the responsibility of the school and the Athletic Director will serve as the site administrator for the AED unit(s). Improper care, use, and or storage of the AED unit will result in the unit(s) being removed from the school by DCIAA.

9.6.2 AED Storage. The AED should be stored in a common area that is accessible by all coaches or in the Athletic Director's office so that it may be retrieved without hindrance when needed. (The ADA guidelines specify that if the device is mounted, it must not be mounted higher than 48 inches/4ft). It needs to be easily accessible for all coaches to retrieve the device. During the Fall and Spring Sports, if the AED is not mounted in a common secured area, it should be signed out by a coach and taken daily to the practice field. The device should be returned to its designated storage area to be secured upon completion of the practice. A sign out sheet (template provided) will be kept in a binder.

9.7 EXERTIONAL HEAT ILLNESS (EHI)

9.7.1 Prevention of an Exertional Heat Illness. The athletic rule as it pertains to the prevention of an Exertional Heat Illness is supported by two governing bodies, the National Athletic Trainers' Association (NATA) and the National Federation of High School Sports (NFHS), Sports Medicine Advisory Committee. The following should be implemented for all teams practicing in hot and/or humid environments.

- a. Athletic Trainers (ATs) will have an Emergency Action Plan for response to emergencies. The ATs will identify at-risk athletes with predisposing signs/symptoms, will educate athletes on proper hydration before, during, and after participation as well as have sufficient fluid readily accessible for consumption. In addition, urine testing (refractometry), weight charts, and temperature/humidity readings as obtained from Kestrels will be utilized. All teams participating in hot/humid conditions will adhere to the DCIAA Heat Acclimatization and Sport Acclimation Policy.
- b. Athletic Trainers will utilize the following modalities and standards for assessment and treatment set forth by NATA guidelines. The modalities used may include, but are not limited to, rectal thermometry to determine core body temperature if Exertional Heat Stroke (EHS) is suspected and Cold Water Immersion (CWI) for immediate on-field treatment of EHI Exertional Heat Illnesses (EHI). The ATs will ALWAYS COOL FIRST, THEN TRANSPORT.

9.7.2 Return to Participation/Play (RTP) following an EHI. As determined by the Athletic Trainer (AT), the RTP is as follows: With Exertional Heat Cramps, athletes may return to participation when symptom free. If an athlete is diagnosed with Exertional Heat Syncope, athletes may return the next day if hydration levels are within normal limits and the athlete is symptom free. However, if the athlete is diagnosed with Exertional Heat Exhaustion or Exertional Heat Stroke, the athlete must have a clearance note from the treating physician stating that they may return to competitive sports and are cleared from the EHI. Once the note is received, the Athletic Trainer will permit the athlete to begin the gradual return to play. The RTP will be supervised and documented by the AT or his/her designee.

- 11.3.2 Sanction Documentation and Notification.** All sanctions must be based on either an official's incident report or an investigation of the student's conduct, depending on whether the sanction is the result of an adverse decision made by a game official or of student conduct that did not result in an adverse decision made by a game official. Other supporting documentation may be used to justify the sanction if available. A sanction is not official until the Deputy Director of Athletics or the Assistant Athletic Director sends written notification to the affected student's coach, principal, and school athletic director. Such notification must include why the student is being sanctioned, the duration of the sanction, and the student's initial appeal rights, including the content and form of the appeal. Article 15: NCAA Eligibility

15.1 NCAA ELIGIBILITY

Student-athletes entering their first year of college must meet the NCAA minimum standards in order to practice, compete, or receive athletic-based financial aid. The NCAA offers three levels of competition. They are Division I, Division II, and Division III. You must be certified by the NCAA Eligibility Center in order to compete as a freshman at Division I and Division II level. Division III student-athletes do not have to register or be cleared by the NCAA to compete as a freshman. In football, Division I is further broken down into two categories. The categories are the Football Bowl Subdivision (FBS) and the Football Championship Subdivision (FCS). Even though the category is broken down into two subcategories, the incoming student-athlete must meet the NCAA minimum requirements for Division I.

15.2 NCAA ELIGIBILITY CENTER

15.2.1 Initial Eligibility. The NCAA Eligibility Center (<https://web3.ncaa.org/ecwr3/>) is the governing body that determines the initial eligibility of a student-athlete who wishes to compete in the NCAA. The NCAA Eligibility Center is responsible for the evaluation of transcripts and test scores. They will use this information to determine if the student-athlete meets the necessary requirements set forth by the NCAA. Each student-athlete must register with the NCAA Eligibility Center before they can submit any documents for review. The NCAA can flag documents and request more information from the student or the school.

15.2.2 Transcripts. A transcript from every high school attended by the student-athlete must be submitted to the NCAA. The transcripts must be official and sealed in an envelope. If a student-athlete completes a summer school course, a separate transcript may be required by the NCAA if the class was taken at another school.

15.2.3 NCAA List of Approved High School Courses. The NCAA will only accept courses that are listed on the NCAA approved course list. It is very important to ensure that the courses you are taking are on the list provided by your school to the NCAA. A list of approved courses can be found on the NCAA's website.

15.2.4 Test Scores. SAT and ACT test scores must be submitted directly from the testing center. The NCAA will not accept a test score that is listed on a transcript. To have your test scores sent to the NCAA Eligibility Center, the student must enter the code 9999 in the recipient's section.

15.2.4.1 SAT Test Score. Only the English and Math sections of the SAT will be used by the NCAA to determine eligibility; however, your school of choice may require the writing portion for admission to their university.

15.2.4.2 ACT Test Score. The ACT sum test score will be a composite score of all four sections added together. The four sections are English, Math, Science, and Reading.

 - The home team will call the coin toss to determine initial possession, and representatives return to their bench to begin play.
 - Following the coin toss, the referee will call for the routine number from the coach with the possession. The routine to perform will be selected by the team with possession.
- 31.3.4 Game.** Stunt is played by two teams who perform preset routines on the playing field at the same time. These routines consist of varying skill levels of partner stunts, pyramids, tosses, jumps and tumbling. The routines are determined by USA Cheer and published annually prior to the start of the season. The purpose of each team is to score by executing the routine with fewer errors than their opponent.
- Regulation consists of four (4) quarters of play: Partner Stunts, Pyramids and Tosses, Jumps and Tumbling, Team Routine
 - Each of the first three (3) quarters will consist of four rounds. Each round will consist of one of six (6) available routines based on the category of the current quarter.
 - The fourth quarter (Team Routine) will consist of three (3) rounds. Each round will combine the routines of that level in one continuous routine in the following order: Partner Stunts, Jumps and Tumbling, and Pyramids and Tosses.
- 31.3.5 Forfeit.** Following the routine call during any round, the opposing team may forfeit the round. This is done by the coach signaling to the referee with forearms crossed in front of the chest to form an "X." Once a forfeit is called, the opposing team may take the floor with the opportunity to win the point using the forfeit scoring rules.
- 31.3.5.1 Self-Forfeit.** If a team with possession does not have a routine remaining that they can perform, they can call a routine and immediately forfeit. The other team may take the floor with the opportunity to win the point using the forfeit rules.

not have possession at the beginning of the round.

If each team has the same number of deductions, the round ends in a tie. For example, if the home team has one major error and the away team has 3 minor errors.

31.3.7.1 Quarters 1-3. The round winner receives 1 point. The round loser receives 0 points. A tie round results in each team receiving 1 point.

31.3.7.2 Quarter 4. Each section of the routine is scored individually using the same scoring as the first three quarters. A team may score anywhere between 0 to 3 points. For example, if the home team wins the first section (1-0), the teams tie the second section (1-1), and the away team wins the third section (0-1). These individual section scores would be added together to end with a score of 2-2 for the round.

31.3.7.3 Final Scores. The final scores are determined by the combined scores from each of the four quarters. The winner is the team with the most points at the end of the game.

31.3.8 Overtime. In the event of a tie at the end of regulation, the coaches will meet at the center of the mat for a coin toss. The away team will call the coin toss to determine possession of the first overtime period. The winner of the coin toss will determine the quarter for the 1st round in overtime. All quarters – including the 4th-quarter may be called in overtime. Routine 1 of the quarter called by the coin toss winner will be performed by both teams. Overtime rounds are performed and scored exactly as in regulation. The team that wins the round is declared the winner of the game. If the first-round results in a tie, possession alternates, and overtime continues to round two. If the winner is not determined after the 3rd overtime, play defaults to all 4th-quarter routines until a winner is determined.
