Michael.Bryant5@k12.dc.gov

Introduction

In the event that an emergency situation should arise during an Browne Middle School athletic event, including practices and competitions, the following guidelines should be followed in order to provide the best care to the patients with emergency and/or life-threatening conditions. Implementation of an emergency plan will ensure the best care is provided for emergencies.

Emergency Personnel:

- Kaitlyn D’Annibale, Athletic Trainer
- Team Physician, Terry Thompson, MD (Howard University Hospital)
- Medical Resident Physicians (Howard University Hospital Medical Residents)
- Athletic Training Students (George Mason University)
- EMS

Roles within the Emergency Team:

Immediate care of the athlete
Emergency equipment retrieval
Access for EMS to the scene (opening gates, disarming panic doors)
Activation of the Emergency Medical System
Direction of EMS to the scene

Activating the EMS System:

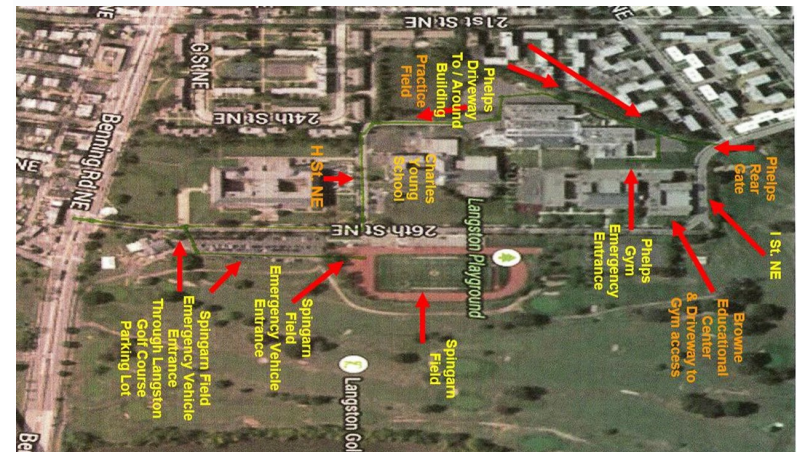

Making the call:

9-1-1 if available

Telephone numbers for local police, fire department, and ambulance service

Providing Information:

- Browne Middle School- 850 26th NE, Washington DC 20017
- Telephone number of the caller
- Number of athletes injured
- Condition of the athlete (breathing, not breathing, pulse, no pulse, bleeding, conscious, unconscious)
- 1st aid treatment initiated by the 1st responder (blood control, rescue breathing, CPR, etc)
- Specific directions as needed to locate the emergency scene
- Other information as requested by dispatcher
- Someone will be in place to meet the ambulance and direct them to the injured athlete

Emergencies at Spingarn Stadium Field

(Football, Soccer, Track & Field)

For emergencies on the football field or track, EMS should be directed to access the stadium through the Langston Golf Course parking lot. The parking lot entrance is on the east or right side of 26th St. near or coming from Benning Rd. NE. EMS should enter the Langston Golf Course parking lot and proceed toward the stadium, entering the stadium by going through the Emergency Vehicles Only gate.

Spingarn Field—26th & H Sts. NE or the 800 block of 26th St. North EAST
Washington, DC 20002

Access to the gates on the field:
Generally, the gates are unlocked but appear locked and are shut.
Contact Stadium Manager Hawking to unlock.

Emergencies in the Gymnasium (Driveway doors)

Direct EMS to the 850 26th St North EAST, then to gym or 26th St. - STREET level entrance via the driveway leading to gym doors entrance from 26th St. North EAST. Facing the main entrance, on street level, one driveway is to the right. Take the driveway to the first set of Double doors on the right (under the overpass). These doors lead to the gym.

Ideally, someone will meet EMS at the street and assist in getting them through the doors to the gym.
EMS should be directed to the gym doors. The gym is at the north end of the building or the end where 26th St. goes from the front of the building and goes left and around the building becoming I St. There are doors on the north end of the gym (I St. side).

Transportation to the Emergency Room:

- If the athlete is transported, EMS should provide which hospital the athlete is going to in order to provide accurate information to the parent or guardian.
- If EMS is activated the parent or guardian of the injured athlete must be contacted.
- If the patient is transported, a coach or school staff **MUST** accompany the patient to the hospital along with the emergency treatment form.

Injury Management

- The attending ATC will assess the injury and provide necessary initial injury management.
- Follow instruction of the emergency action plan devised specifically for that school (If out of town a supplemental Emergency Action Plan will be provided)
- If EMS is activated, the athlete should not be taken to the emergency room alone.
- A parent, coach or other school staff member should accompany the athlete, if EMS transportation is required.
- The ATC, coach, or the accompanying school staff member should notify the athlete's parent or guardian if he/she is transported to the Emergency Room.
- An injury report will be completed by the ATC upon return to the school.

Lightning Safety

All coaches and athletes will use the following guidelines in the event of lightning. If you see

lightning or hear thunder all individuals are to leave the athletic site and seek safe shelter. **Play is not to be resumed until 30 minutes after the last lightning or thunder occurrence.** Safe sites include inside cars, vans, buses, or nearby buildings. Shelter should not be taken in the baseball or softball dugouts.

General Information

On Field Emergency Protocol:

- Players and coaches should go to and remain in the bench area once medical assistance arrives
- Adequate lines of vision between the medical staffs and all available emergency personnel should be established and maintained
- Players, parents and non-authorized personnel should be kept a significant distance away from the seriously injured athlete or athletes
- Players or non-medical personnel should not touch, move or roll an injured player
- Players should not try to assist a teammate who is lying on the field (i.e., removing the helmet or chin strap, or attempting to assist breathing)
- Players should not pull an injured teammate or opponent from a pile-up
- Once the medical staff begins to work on an injured player, they should be allowed to perform services without interruption or interference
- Players and coaches should avoid dictating medical services to the athletic trainers or team physicians.

Emergency/Crisis Event

In the event of an emergency/crisis, the Athletic trainer/On-site school personnel will direct the athletes, coaches, officials to the designated safe secure location .
